Introductory

The present volume for 1952 is the 45th edition of Henderson's Directory of Regina. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION starting at page 11 contains information about Civic History and Industry, as well as a complete list of Apartment and Business Blocks.

THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting on page 25 features the names of all streets and avenues arranged alphabetically and numerically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

△ Denotes that there is a Telephone in the house.

◆ Denotes that someone living in the house is the owner.

THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations starts on page 169.

THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY at the back of the book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

REGINA POPULATION, in excess of 72,500

The Directory estimate of population is based on the actual number of individual's names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Regina Directory covers considerable territory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Regina may be obtained.

ADVERTISING REGINA

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully,

The Publishers,

HENDERSON DIRECTORIES LIMITED.

September, 1952

PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

HENDERSON DIRECTORIES LIMITED,
PUBLISHERS.

26 Playgrounds and parks.

POLICE DEPARTMENT—

The City operates its own police force. The department is under the control of a Board of Police Commissioners consisting of the Mayor, the Judge of the District Court, and the Police Magistrate.

POPULATION—

1903	3,000
1911	22,500
1920	40,000
1938	53,389
1945	58,553
1950	72,000
1952	72,500

PROPERTY ASSESSMENT—

\$52,542,100 (1952)
Mill rate, 63 (1952)
Land at 100 and Improvements at 30 per cent.

TRANSPORTATION—

City owned Utility equipped with gas and trolley buses.
Both CPR and CNR pass through and 14 branch lines radiate out.
TCA makes a main line point here.

TREASURES—3

UTILITIES—

Steam turbine Electric Plant owned by City. Equipped to burn either coal or oil.

1225 Street Lamps with 160 miles of lines required to service over 18,500 consumers.

Water system from artesian wells include 35 miles of supply line, 30,000,000 gallon storage.

Water main	35 miles
Hydrants	774
Meters, over	12,000

Regina

(By Courtesy The Regina Chamber of Commerce)

Chief Sitting Bull made the first recorded visit to the present site of Regina when he arrived there in 1851 on his way to Wood Mountain where the Sioux made their head-quarters while seeking refuge in Canada after the Custer Battle on the Little Big Horn in Montana. The locality had long been known to the natives as "Heap O' Bones," owing to the fact that a great pile of buffalo bones garnished the low hills nearby. The first settlers called the place "Pile O' Bones," and this name appeared in official documents. The name, "Wascana," given to the creek running through the area is a corruption of the Cree word for Pile O' Bones.

It was intended to name the place Victoria, in honour of the Queen, but that name had already been bestowed on the Capital of British Columbia. The matter was referred to Princess Louise, the daughter of Queen Victoria, whose husband was then Governor General of Canada, and she selected the name "Regina." The city was named as the first train arrived at nine o'clock, August 23rd, 1882. A tent settlement had sprung up in the spring of that year.

Regina was incorporated as a City in 1903, but the little community had already been the seat of Government of the North West Territories for twenty years. It became the Provincial Capital when Saskatchewan was formed in 1905.

At the time of its incorporation Regina had a population of 3,000. Today it has a population of 72,500. While not what might be called a large city, it is the fourteenth largest of all Canadian Cities. It may seem small for a Capital, but in Western Canada a city of 50,000 or more is often of greater significance from the point of view of commerce and distribution of goods than a City of several times the population in older countries.

Regina is the financial centre of the Province and it holds an important place in the life of Saskatchewan by virtue of the fact that it is the Capital and by the commercial and industrial development which has taken place within it.

The Legislative Buildings are among the most stately and beautiful in Canada. They are situated on the banks of Wascana Lake and surrounded by spacious grounds which have been beautifully developed and landscaped. The building itself is regarded as an ideal structure for legislative work. It was first begun in 1906 and cost in the neighborhood of \$3,000,000.00.

Regina contains Churches of many denominations and is the seat of the Anglican Bishop of Qu'Appelle and of the Roman Catholic Archbishop of Regina.

Regina is one of the best paved cities in Canada for its size. It has approximately 52 miles of paved streets, over 43 miles of graded streets, over nine miles of oil and gravel streets and 46 miles of gravelled streets. It has 54 miles of concrete and 75 miles of plank sidewalks.

The City has one hundred and forty miles of sewer and 93 miles of water-mains with 774 hydrants and 12,392 house connections. There are two trunk sewers, a sewage disposal works and an incinerator for disposal of garbage.

A modern fire department is maintained by the City with fire stations, a force of 132 well trained firemen, and fully equipped with modern fire fighting apparatus.

Because of its natural attractions and the improvements which its people have made to it in the course of its short history, Regina is a very popular tourist and convention centre. Hotel accommodation is suitable for small and large gatherings and many thousands annually take advantage of its splendid facilities.

AGRICULTURE

Surrounding Regina is the finest grain growing district in the world. Saskatchewan is the greatest grain growing province in the Dominion and produces annually one half of the Canadian hard wheat crop. As producer of quality hard wheat Saskatchewan leads the world, having won the world's prize eleven times during the past sixteen years.

While Saskatchewan has always been considered the Premier Grain Growing Province in the Dominion there is abundant evidence that she will, in the not distant future, occupy an equally outstanding position in the realm of livestock. At the Royal Winter Fair, Toronto, and at the International Exposition, Chicago the high quality of our Saskatchewan livestock has been demonstrated over a long period of years.

AVIATION

Regina was a pioneer in the field of aviation. It was one of the first cities in Canada to have a municipal flying field. This is well equipped with a fine hangar.

Regina Flying Club was established in 1927, and received the fullest co-operation from Civic Authorities. It built a hangar for its own operations.

The Airport area now comprises 900 acres with additional space available and subject to easy development. It has three runways, 3,500 feet long and 150 feet wide. These are all hard surfaced.

There is a very substantial administration building and control tower at the airport and it is particularly well supplied with taxi strips capable of handling any weight.

Regina is connected with the Transcontinental line of the Trans-Canada Airlines and is the southern terminal of the Canadian Pacific Airline which provides a local service to a number of Saskatchewan Cities.

Regina is favourably suited to be a central point on World routes extending from the West Coast to Europe and from Eastern and Central United States through Alaska to the Orient. It is merely at the beginning of its potential development and it is extremely fortunate that its foundations are so well laid.

BANKS

There are 7 Chartered Banks in Regina—Bank of Montreal, Bank of Nova Scotia, Canadian Bank of Commerce, Dominion Bank, Imperial Bank of Canada, Royal Bank of Canada, and the Bank of Toronto. All are members of the Regina clearing House Association which made a record in 1951 with total clearings for the year standing at \$1,023,587,967.46. A branch of the Bank of Canada is also located in Regina.

BENEVOLENT INSTITUTIONS

The Benevolent Institutions in Regina include the Masonic: The Royal Arch Masons, Knights Templar, Scottish Rite, I.O.P.E., A.A.O.N., Mystic Shrine, Eastern Star. Others are: I.O.O.F., Manchester Unity, Knights of Columbus St. Andrews Society, Sons of England, Sons of Scotland, Knights of Pythias, Dramatic Knights of Order of Khorasan, L.O.B.A., L.T.H., Royal Antediluvian Order of Buffaloes, L.O.L., Orange Benevolent Society, Order of Alpha, United Commercial Travellers, and the Fifteen Hundred Club of Regina.

CHAMBER OF COMMERCE

The Regina Chamber of Commerce (formerly Board of Trade) was organized in 1886, and incorporated in 1888. Twenty-three members compose the Board of Directors known as the Council of which the Chairman is President. It operates through numerous standing committees, and a Retail Merchants Division. It maintains a down-town office for public services. Inquiries for information in regard to the City may be directed to it. The Junior Chamber of Commerce shares the same office.

BUILDING

Regina has experienced two outstanding periods of building activity. The first of these was 1911 and 1913. In these three years permits totalled over \$17,000,000. The second was the period 1926 to 1930 when building permits exceeded \$24,000,000. Regina is now in a third period. Value of permits in 1950 exceeded \$6,400,000.

Business and public buildings are of brick or stone construction. Private dwellings are of brick, wood, or stucco, the latter has become especially popular of recent years. The Legislative Building, the Hotel Saskatchewan, the Dominion Government Building, the Post Office, Canada Life Building, McCallum Hill Building, are a few of the structures to which Regina can refer with justifiable pride.

CITY COUNCIL

This body is composed of a Mayor and ten Aldermen half of whom are elected annually by a vote of the entire City. This body formulates the policy and this is made effective through the City Commissioner, and Department heads. The City has a record of efficient and capable administration. Departments are well organized and equipped. In all its operations it is in a very healthy financial condition. The city owns and operates its waterworks, street transportation (buses and trolleys) and light and power systems.

CLUBS

There are numerous clubs and organizations in the City. The Assiniboia Club is the oldest private men's club. Service Clubs include Rotary, Kiwanis, Gyro, Klansmen, Lions, Cosmopolitan and Y's Men. There are also a number of ladies clubs, and most of the ladies' organizations are correlated in their activities through the local Council of Women.

CO-OPERATIVES

Regina has become an important centre in the co-operative movement of the Province. It has an important branch of the Saskatchewan Federated Co-operatives, a wholesale organization. Affiliated with the Federation is the Consumers Oil Refinery. The headquarters of the Saskatchewan Co-operative Producers, (formerly the Saskatchewan Wheat Pool) and the Saskatchewan Cooperative Creameries Ltd are also located in Regina. These organizations have representation throughout the whole Province.

ELECTRIC LIGHT AND POWER

The electric light and power system owned by the City is a revenue producing utility. A modern plant on the shores of Wascana Lake generates City Power. Additional units are being added to keep up with the needs of a growing city.

The boiler plant consist of three medium pressure Foster-Wheeler Steam generators equipped for pulverized fuel and oil burning. The plant has all modern labour saving devices and shows excellent economy in generating.

The distributing system is fed from two sub-stations in addition to the main power house. These sub-stations are fed directly from a 13,200 volt loop line with the 4,000 volt distributing system connected as a net-work.

Number one sub-station contains the City water pumping plant and the main supply of the street railway. It has two motor or gasoline engine driven water pumps of 5,000,000 and 7,000,000 gallon capacity respectively. Number two is an unattended station.

1,225 street lights illuminate 116.53 miles of streets and 1 mile of lane. 142.16 miles of pole line and 16.5 miles of underground cable are required for the distribution of light and power to 16,367 consumers.

EXHIBITION

The City of Regina conducts an Annual Fair and Exhibition. This is handled through a separate Board. The Fair Grounds are exceptionally well equipped with excellent facilities for the exhibition of livestock, industrial products, commercial lines, cooking, and the Arts and Crafts.

The buildings which housed the World's Grain Show provide spacious exhibition facilities for the display of big units such as automobiles. The open grounds of the exhibition property are used for still larger items such as the exhibit of farm machinery. Farm machinery row at the Regina Exhibition is one of the greatest displays of farm machinery in the world.

Together with the agricultural and industrial features of the Fair, are involved numerous holiday attractions such as midway, race track, and spectacular grandstand performances. This exhibition takes place generally towards the end of July and is a big event of each year.

FINANCE

The City of Regina is in a very good financial position. Indebtedness which was incurred in the early days to build up what has become the 14th City of Canada, is rapidly being repaid. The present net indebtedness is just slightly in excess of \$5,000,000. Considering the city has utilities valued far in excess of that amount, its liquid position is quite obvious.

Tax collections are exceptionally good and the net taxable assessment in 1952 was \$52,342,100. Real estate is assessed at 100% of its value and improvements at 70% of their value. The general tax rate for 1952 is 48 mills.

HIGHWAYS

A new road is being constructed on Trans-Canada Highway No. 1. This is a new highway which will be a two-lane road from the city to the new bridge. The new bridge is being constructed for some distance both East and West of the City.

The new road is being constructed on a high level which gives a good view of the city and the surrounding area. The road is being constructed on a high level which gives a good view of the city and the surrounding area.

The new road is being constructed on a high level which gives a good view of the city and the surrounding area. The road is being constructed on a high level which gives a good view of the city and the surrounding area.

The new road is being constructed on a high level which gives a good view of the city and the surrounding area. The road is being constructed on a high level which gives a good view of the city and the surrounding area.

HOSPITAL (REGINA GENERAL)

This is a city owned hospital operated by a Board of Governors appointed by the City Council. The hospital is located on the city and includes the new wing. The hospital is located on the city and includes the new wing. The hospital is located on the city and includes the new wing.

A Venereal Disease and Tuberculosis Clinic of the Provincial Government are also located in the hospital.

HOSPITAL (GREY NUN'S)

This large institution of 500 beds and 80 bassinets is administered by the Grey Nuns. The hospital is located on the city and includes the new wing.

The hospital is located on the city and includes the new wing. The hospital is located on the city and includes the new wing. The hospital is located on the city and includes the new wing.

INDUSTRY

The city has a large manufacturing industry employing over 2,000 persons. The city has a large manufacturing industry employing over 2,000 persons.

The city has a large manufacturing industry employing over 2,000 persons. The city has a large manufacturing industry employing over 2,000 persons.

The city has a large manufacturing industry employing over 2,000 persons. The city has a large manufacturing industry employing over 2,000 persons.

The city has a large manufacturing industry employing over 2,000 persons. The city has a large manufacturing industry employing over 2,000 persons.

MUSIC

The city has a large manufacturing industry employing over 2,000 persons. The city has a large manufacturing industry employing over 2,000 persons.

The University also has an outstanding Art Department. Numerous clubs within the city encourage the development of these interests among the citizens. The Museum of Art and Science is also housed in Regina and a velodrome is one more way for a citizen to develop his athletic requirements. It is the city which we make Regina the headquarters for this work in Saskatchewan.

PARKS AND PLAYGROUNDS

The City maintains playgrounds for the recreation of its youth. Summer and winter is organized by the Recreation Commission of the Parks and Recreation Department. The program of the city is complete by having the summer and winter programs. Numerous other skating rink are provided for the winter program.

Wascana Park encompasses 45 acres bordering Wascana Lake and just opposite the Legislative Building. Located within this park is the largest of Regina's three outdoor swimming pools.

One of the unique features of the City of Regina is Victoria Park located in the downtown section of the City. This beautiful spot of flowers is considered notable and outstanding among the cities of the North American Continent. Its profusion of flowers, shrubbery, and trees, is a delight to all who behold the beauty of its natural beauty.

In connection with Parks and Playgrounds the City operates a nursery for the production of shrubs, trees and plants. Greenhouses and hot beds provide thousands of plants for transplanting into the flower beds of the parks and other city properties, including the grounds of the City Hall.

POLICE

The city operates its own police force. The department is under the control of a board of commissioners consisting of the Mayor, the Judge of the District Court and the Police Magistrate.

Beyond the city limits and throughout a great part of the Province policing is done by the famous Royal Canadian Mounted Police force, whose western training headquarters are located in Regina.

Recruits from all over the Dominion receive their specialized training at the Regina Barracks, which also houses the famous Criminal Investigation Bureau of the R.C.M.P.

Also housed in the barracks is a Mounted Police Museum depicting the history and work of the force. Here many relics of the past may be seen. This is one of the only museum in town housed in a police station and is a spot of much public interest to all visitors. The Mounted Police barracks building has been associated with the growth of the city from its very beginning.

PUBLIC LIBRARY

The Public Library consists of a central library with four branch libraries. Between them they contain 88,811 volumes.

RAILWAYS

Regina is situated on the main line of the Canadian Pacific Railway near the end of a branch line of the Canadian National Railways. The railways are served through a union depot but with separate express, freight and telegraph departments.

Fourteen passenger trains from Regina serving 665 towns and villages on a radius of 150 miles.

Regina has excellent connections with the Port of Churchill. Distance from Regina to Liverpool via the Great Lakes and Eastern Ports is 50, via Churchill 3,360 miles.

SCHOOLS

Legion village is located on the banks of Sakin-hewna, a rapid in
 Pegon. There are no late junior colleges in this region, and other
 colleges.

The "City School" system includes the following: 1. High and Intermediate schools, two colleges and 27 schools of primary instruction. The colleges are the Government College and the Government Medical College. The Government Medical College is elected by ballot at the time of the City Election.

SPORTS[illegible]

THEATRES

Diagram line is X-100. No picture noticed. The wiring connects in line of base or are not connected in the base. Not an arrow point. There is a ground wire and wires in a line of which are used for a 2 in. 100 for each 1/2 inch of the wire. The ground is by means of a switch which where the whole theory movement is very far advanced.

CENTRE FOR THE TOURIST TREK

Why does the Queen say if the Indians have much of wheat, many
and better a value to give the sailor but it will not be so when you come from the
land and to the wilderness of Muskegetian, all be a 19, the more by the
beard road, into the glory of the pin-point north.

To reach this city of the nation, and "Apia" of the Province you are all brought a fine morning a motor car full of people and a beautiful Polynesian Polynesian of French and French catch it all of way high than a land of some of the best of long days of summer, perhaps a little more than a year or a little more as you in its speed and call you back when you are gone.

The two southern shores of Lake Wagonna are the major forest grounds and used by the majority of the community. The forests are planted in eucalyptus and can visit the library and reading rooms during the day.

In the early 1950s, many of the great leaders of the state of which the Confederation had been made were dead or in the hands of the Federal Government. The only ones left were the few who had been left in the state of the state, as the Federal Government of the state had been left in the hands of the state of the state.

One should not fail to visit the National History Museum in the Provincial Normal School on the other side of the main square in order to see the birds and animals that make their homes upon the prairies.

Recreation and entertainment facilities afford a varied selection for persons under ideal surroundings and short drive. A park, the way to exciting sandy beaches on lakes in the historic Onondaga Valley, and Last Mountain Lake.

About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT—by actual survey in Canadian cities—for each City Directory, an average of three and one half consultations were made for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = \\ 1,067,500$$

Figure 1. A schematic diagram of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group received a standard training program, while the experimental group received a modified training program. The experimental group was further divided into two subgroups: the low-intensity group and the high-intensity group. The low-intensity group received a low-intensity training program, while the high-intensity group received a high-intensity training program. The subjects were then subjected to a series of tests to measure their performance and physiological responses.

Common Sense

About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT—by actual survey in Canadian cities for each City Directory, an average of three and one-half consultations were made for each business day

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

1000 x $3\frac{1}{2}$ x 305—

1,067,500

**Consultations or
Circulation Consulted**

John S. Burroughs, 1836-1919, was a naturalist and writer. He was born in Falmouth, Maine, and spent much of his life in the Adirondacks. He is best known for his book "The Life of John Burroughs" by Alfred R. Ferguson, which was published in 1919. The book is a biography of Burroughs, written by his son-in-law, Alfred R. Ferguson. It is a detailed and well-written account of Burroughs' life and work, and is considered one of the best biographies of the author. The book is available in paperback and hardcover formats, and is priced at \$12.95. It is published by the University of Chicago Press.

More than ninety per cent. of all advertising mediums are discarded before they're a year old

After the new ones come out your advertisement in the directory is still good, for old directories are seldom discarded while they hold together. Years later many of these directories will still be in active use. Your advertisement is still in service

Do you want LONG-LIVED advertising?

Public Libraries in the West

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY Every Time It is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is: -

There is a definite cost involved in the making of the Directory of Your City

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but One Subscriber to the City Directory—the One Subscriber would of necessity have to absorb The Whole Cost.

If there were 1000 Subscribers—each one would have to absorb 1/1000 Part of the Whole Cost.

From which it is obvious that the Greater the number of subscribers—the Lesser the cost to each.

Every time you loan your City Directory the Less Necessity There is for the Borrower to subscribe for the Service.

More Borrowers result in Fewer Subscribers, which means Increased Cost.
